**Subject:** Request for Regional Meeting; Round 2 Haze Plans

Dear Administrator Becker,

On behalf of Earthjustice, Healthy Environment Alliance of Utah, Montana Environmental Information Center, National Parks Conservation Association, Powder River Basin Resource Council, Sierra Club and state coalitions across your region, we write to request a meeting with you and your team to discuss the second round of Regional Haze State Implementation Plans. With partners across the country, our groups have been working with the EPA, state agencies and other stakeholders on sound implementation of the Regional Haze Rule for more than a decade.

As you know, the pollution sources in your regions' states send regional haze and other air pollution not only to Class I areas in your regions' states but also to Class I areas across the country. Our groups are increasingly concerned that your regions' states have proposed State Implementation Plans for Regional Haze that will do nothing to clear our parks, wilderness areas and communities of regional haze. The second round of regional haze planning is an opportunity for the EPA to make good on this administration's environmental priorities and support overly burdened communities by acting swiftly on state plans. We hope to expand on our concerns and EPA's opportunities during a meeting with you.

In preparation for the meeting, below are links to the comments we have submitted during each state's public comment period.
